Planning for the Challenges Ahead

Bruce W. McClendon FAICP
Director of Planning

December 30, 2008

Dan and Christine Selover
6201 Soledad Canyon Road
Acton, CA 93510

Dear Mr. and Mrs. Selover:

I am in receipt of your recent letter concerning the property located at 6201 Soledad Canyon Road, Acton, CA 93510. In your letter, you request that the "Clean Hands" provisions of the County Code be waived to allow a Conditional Use Permit (CUP) to be filed in order to continue the operation of a permanent motion picture set and the storage/maintenance of appurtenant items while the Conditional Use Permit is processed.

In response, I have reviewed the circumstances that relate to your request and I am somewhat uncomfortable granting your request outright. I do understand your request to continue to maintain a permanent motion picture set on the premises, but I am also concerned with the impact of this use on the community and the environment.

The subject property is located within the Acton Community Standards District and a portion of the property is designated a Significant Ecological Area (Santa Clara River). Therefore, in order to ensure the development does not negatively impact the surrounding Significant Ecological Area and to protect the health, safety, and welfare of surrounding citizens, I must consider appropriate conditions of operation. With adherence to appropriate conditions, the impact on the environment and surrounding neighbors can be mitigated.

Taking these concerns into consideration, I will offer the following solution. I will waive the "Clean Hands" provisions of the Zoning Ordinance and allow the use and operation of a permanent motion picture set and storage/maintenance of appurtenant items, provided you comply with items 1-4 below within 30 days of receipt of this letter. Completion of the items below will be confirmed by your submittal of the necessary information and by a field inspection. Once the items below are completed and confirmed by a staff field inspection you will then sign an affidavit agreeing to the following applicable conditions during the period of time that your case is being processed:

1) That the Significant Ecological Area Conditional Use Permit and the Certificate of Compliance application be filed within 30 days of receipt of this letter;

NOT A PERMIT

2) That you will cooperate with the Zoning Enforcement staff in coordinating a property inspection within the next 30 days from the receipt of this letter, and prior to filing the Conditional Use Permit Application, to ensure compliance with all Title 22 codes and ordinances;

3) That the applicant, tenant, property owner or responsible person maintain the property in compliance with the Acton Community Standards District, Los Angeles County Zoning Ordinance and all other County codes during the processing period except for what this Clean Hands Waiver authorizes;

4) This waiver shall not be effective for any purpose until the applicant and the owner of the subject property, if other than the applicant, have filed at the office of the Department of Regional Planning their affidavit stating that they are aware of, and agree to accept, all of the conditions of this waiver;

5) The applicant shall cooperate with the Zoning Enforcement staff in addressing any on-going concerns related to the operation of the motion picture set and related storage. Any request for information from staff shall be provided expeditiously. Any follow-up inspection required by the Department of Regional Planning shall be paid by the applicant at the rate of $150 per inspection. Any follow-up inspection required by any other County department shall be paid for by the applicant at the corresponding department's inspection rate;

6) The applicant, property owner or person in charge of the premises shall not conduct any grading on any portion of the premises until such time as the Conditional Use Permit is approved and the required grading permit is obtained;

7) That all exterior Lighting shall be designed to minimize off-site illumination, within the requirements for public safety, but in compliance with applicable Title 22 provisions;

8) The applicant, property owner or person in charge of the premises shall not increase the area dedicated to storage of any materials, vehicles, trucks, or other items until such time as the Conditional Use Permit is approved;

9) That the applicant, property owner, or person in charge obtain all necessary approvals from FILM LA prior to initiating any film activities. Should filming activities generate excessive noise and light, the property owner or person in charge should take immediate steps to resolve or reduced the impact to the satisfaction of the affected community and FILM LA, or discontinue all activities immediately;

NOT A PERMIT

10) That the applicant, property owner, or person in charge shall obtain any necessary approvals from the appropriate agencies, including but not limited to the Fire Department, Building and Safety, Public Works and Environmental Health;

11) This Clean Hands Waiver shall be valid until a final determination on the applicant's Conditional Use Permit request is made;

12) That should the Conditional Use Permit be denied, the permanent motion picture set shall cease operating at the property and all trucks, vehicles or other items shall be removed from the property within thirty (30) days after the final determination by the County;

13) The applicant's failure to comply with these conditions, or to remedy any violations in an expeditious manner, shall be grounds for immediate revocation of this waiver. Revocation shall be at the sole discretion of the Director of Regional Planning. In the event that the Clean Hands Waiver is revoked, the operation described in this Clean Hands Waiver shall cease immediately;

14) A responsible person shall be present on the premises of the establishment during hours of operation. This person shall be familiar with County laws and adopted conditions pertaining to the subject dispatch trucking business being operated on the premises. This person shall introduce himself/herself to any County regulatory official (Sheriff, Fire, Health, Business License, Building, Regional Planning, etc.) immediately upon notification of that official's presence at the business. This person and all staff members shall cooperate with any County regulatory official's investigation;

15) The motion picture set and premises shall be made available for inspection to any County regulatory agency;

16) Compliance with the terms of this waiver shall not be construed to form the basis for establishing any vested right to use the site or any structure at the site for any use or activity which requires a discretionary approval by the County of Los Angeles. Compliance with the terms of this document shall not be construed as an indication or assurance that the Regional Planning Commission will approve the Conditional Use Permit application or that any particular condition will be acceptable to the Regional Planning Commission. Should the Conditional Use Permit be approved, a new set of conditions will be established for operations and activities at the site that will supersede the conditions imposed herein; and

NOT A PERMIT

17) That the permittee shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this waiver. The County shall promptly notify the applicant of any claim, action, or proceeding and the County shall cooperate fully in the defense. If the County fails to promptly notify the permittee of any claim, action, or proceeding, or if the County fails to cooperate fully in the defense, the applicant shall not thereafter be responsible to defend, indemnify, or hold harmless the County.

I trust these suggestions will be acceptable to you. If you have any questions, please contact Oscar Gomez of my staff at (213) 974-6455, Monday through Thursday between 7:30 a.m. and 6:00 p.m. Our offices are closed on Fridays.

Very truly yours,

DEPARTMENT OF REGIONAL PLANNING

NOT A PERMIT

Acton Special Filming Conditions and Guidelines
Thursday, December 12, 2019

SPECIAL CONDITIONS

1. Production companies shall place bi-directional signage for full closures on the affected roads at least 48 hours in advance. Permission from the property owner(s) must be obtained before any signage is placed on private roads or easements.

2. Removal by production companies of all directional and notification signs shall be done within 24 hours after shoot.

3. Soledad Canyon Road closures[1] are prohibited from 4:30 am to 6:30 am Monday through Friday to facilitate morning peak traffic for the Soledad Canyon Road / Crown Valley Road corridor. Afternoon peak hour[2] closures may be required when conditions warrant. All requests for road closures require a traffic control plan and restrictions on road closures will be evaluated by DPW on a case by case basis.

4. Large trucks and production vehicles are prohibited from unpaved streets/roads. Smaller trucks ("stake beds" and vans) must be used for equipment and personnel movement. Speed limits must be obeyed where posted or 10 mph where not posted. Displacement of dust must be minimized.

5. Production companies will be encouraged to not to exceed a ½ load for all Film Shoots. ¾ and full load may be allowed in circumstances such as where a ½ load impedes the functioning of a required weapon and/or the location is in a secluded area with few residences. **Expanded notification within at least a ½ mile of shoot location will occur for special effects such as gunfire.** For such activity to occur outside the standard hours of filming, surveys of affected properties will be done with the same radius and assessed before the County will grant permissions.

6. For use of drones, the production company shall comply with all FAA requirements and minimize impact to equestrian/livestock areas.

GUIDELINES

1. As a general rule, permits will not be issued to any locations with open code enforcement actions. If there is an open code enforcement action on a property, a permit shall not be issued for filming at that location. However, not all code violations warrant a prohibition on filming. Each is examined on a case by case basis by the Department of Regional Planning or respective Department. Code violations may range from Zoning, Building, Fire and Health code violations. The following departments have the authority to issue Notice of Violations (NOV): (1)

[1] Per the DPW traffic data analysis for the Soledad Canyon/Crown Valley corridor completed October 2018, the volume data indicates a weekday traffic peak period from 4:30am to 6:30am.
[2] Weekday afternoon traffic on Soledad Canyon is uniform. The afternoon "peak hour" traffic volume (4:30pm – 6:30pm) is 67% lower than the morning peak volume.

DRAFT

Regional Planning (Zoning); (2) Public Works (Building); (3) Fire (Health and Safety); Public Health (Health) For example, a property with a minor plumbing violation does not warrant such an action as prohibiting a permit. Also, those properties with a NOV but are in the process of fixing the problem should not be prohibited.

2. FilmLA evaluates all requests for permits in this area using the following criteria: Frequency of filming per block near the requested location and parking areas – Duration and frequency of recent filming – Proximity of concurrent filming activities – Historical use – Recent problems or complaints – violations of County Code – Number of filming days requested – Company size – Proposed activities (effects, excessive noise, cranes, night filming, number of days with use of outdoor lights, etc.) – any other criteria that may be relevant to the specific situation. A FilmLA monitor may be required on a shoot for highly sensitive areas where there have been consistent documented community concerns. The need for a Film Monitor will be evaluated on case by case basis. **No Permits will be allowed without the above review.**

3. Affected residents must be notified at least two (2) days in advance of the first day of (standard) filming or the first day of any substantial set preparation. Permit requests must be submitted to FilmL.A. Permit requests must be submitted to FilmLA at least three (3) full business days in advance. **Notice over an expanded area may be required for special effects or other extraordinary film activities in areas where horses or other livestock are located or when the filming location is in a canyon**. Additional noticing will continue at local area community centers, libraries, and market centers as well via the Acton Film Notice email list[3].

4. Within all County Unincorporated Areas, filming activity, including set up and breakdown, is restricted to the 7am – 10pm timeframe. Filming activities proposed outside the standard hours are subject to an assessment of the surveys collected from the impacted properties. Proposed gunfire and explosions outside the standard hours are not recommended and subject to the assessment of the community surveys conducted within the expanded half mile radius.

5. FilmLA, with the approval of the County, may deny the permit if they receive information that the notifications were not timely to address the concerns of the horse or livestock properties. Explosions, gunfire and other filming activities which may affect equine or require a longer notice period of up to five (5) days. Relocation of equine or other livestock, if needed, is at production's expense. FilmLA will instruct productions to survey these property owners to assess any negative impacts. The responses are analyzed by FilmLA and those results are shared with the County via the OPS system.

[3] Acton Town Council Film Committee agrees to advertise a public notice in area newspapers requesting residents provide emails to FilmLA for inclusion in the Acton Film notice email list.

NOT A PERMIT

6. Lighting[4] of sets for Film shoots should stay focused within the area of the shoot and must avoid impacting neighboring properties. Any requests for lighting use outside of the 7am – 10pm timeframe will require surveys from affected area residents before approval is given by the County.

7. All production must restore filming locations such as roads to their original condition. FilmLA will reinforce this requirement as needed and follow up with Production if it is not adhered to. Since LA County does not have jurisdiction over private roads, the production company is responsible for obtaining permission from the owner(s) to use the private roads or easements.

8. Cast and crew shall be familiar with the provisions of the Filmmaker's Code of Professional Responsibility.

9. Public Works does not maintain private roads or public roads which have not been accepted into the road system. To determine if a road is County maintained, visit http://dpw.lacounty.gov/gmed/lacroads/Find.aspx.

10. For use of Drones[5], the Federal Aviation Administration (FAA) is the entity that regulates the flight of drones and preempts the County's ability to regulate flight of unmanned aircraft. FilmLA requires production companies to meet FAA requirements for use of drones to process permits. If drones are used, the permit will include language requiring the production to minimize impact to equestrian/livestock areas.

NOT A PERMIT

[4]LA County Dark Skies Ordinance does not apply to temporary lighting. Per LA County Code, temporary outdoor lighting is defined as lighting that does not exceed 60 consecutive days or more than 120 days per year.

[5] The County is currently reviewing the extent that it may regulate drones within its jurisdiction. If drones are requested as part of the permit, FilmLA will note it on the Permit to lessen impact to equestrian areas
